

How To Plant The Topiary System

Lower Pot

Planting the Lower Pot

1. Place the washer end of the pole into the drainage hole of the pot. Slide the grid down the pole until the legs become wedged and the pole is stabilized.
2. Add soil and plant the pot as desired.

Planting the Upper Basket

3. Line the bottom to third rung with wet spagnum moss. Fill the moss 'nest' with soil.
4. Place ivy, jasmine or other desired plants on their sides in the soil. Pull runners through the sides of the basket. Continue layering moss and ivy until the basket is full.
5. Plant desired color in center.
6. Place basket on pole.

Upper Basket

GRID SIZE	7"	10"	12"	14"	16"
POT SIZE	8"	12-14"	14-18"	12-14"	12-14"
